SRC news

Our fundraiser for Freaky Friday raised $56.75 for the Starlight Foundation. Thank you everyone for your support and it was great to see so many freaky costumes.

As we get closer to the end of the year, it’s time to think about whether you would like to be an SRC member for 2016. If so, maybe start thinking about your speech.

P&C lunch day

The P&C will be selling ham salad sandwiches this Thursday, 12 November 2015. Please make sure you return your order form.

Concert practice underway

This year we will be holding our concert during the day. A date has not been set yet, due to the proposed swimming school. We will notify parents as soon as the dates have been confirmed.

We do know it will be a day time concert due to the distance staff have to travel.

Roles for the children in the play have been decided and they are all madly practicing their lines.

K-2 work samples

**Fairies**

Fairies are mythical creatures. If you spill milk on the floor brownies will clean your house up and the milk. There are many different types of fairies, goblins, brownies, hobgoblins, pixies, dwarfs and gnomes. I wouldn’t like a goblin in my house because they would make a mess. Fairies that live in groups will take people’s babies and swap them with their babies, but if the people know that their baby isn’t theirs, the real baby comes.

**The Dragon**

The dragon is breathing fire poison on the people. St George slayed the dragon.

**A list of Jobs for Brownies to do at Home while I’m at School**

1. Bake a chocolate cake;
2. Feed the dog;
3. Collect the eggs;
4. Make a cup of tea;
5. Do the dishes;
6. Make some jam drops;
7. Make some gingerbread men;
8. Make some damper;
9. Make chicken schnitzel for dinner;
10. Clean my room;
11. Clean the floor;
12. Vacuum the house;
13. Mop the house;
14. Clean the toilet;
15. Do my homework;
16. Get some money out of Mum’s, Hannah’s and Charlotte’s rooms;
17. Make some cup cakes;
18. Make a lemonade drink for me.

**Why was there thunder and lightning in the lab?**

The scientists were brainstorming!

By Fred

---

**Fairies**

Fairies are mythical creatures and they are friendly and they are shy. Most fairies are shy. Some live in groups.

---

Earlier in the year, 5-6 had to construct a metre squared. They had to identify how many m² it would take to fill our classroom. Then we tried to see if we could fit K-2 into a metre squared.

The Dragon

St George went to kill the dragon. He saved the princess and the people were happy.

**Why are bananas so good for kids?**

One banana provides almost a third of a child’s daily vitamin B6 requirement. They’re high in vitamin B6, a good source of dietary fibre and provide potassium to balance sodium content in the body.

By Mahteece
Our new Literacy program (L3) is working well in the classrooms with good results. Picture: Mrs Stewart is working with Elijah.

Rainbow veggie, couscous & hummus salad
Preparation 20 mins | Serves 4
1/2 cup couscous
1/2 cup boiling water
1 tbsp olive oil
1 green onion (shallot), trimmed and thinly sliced
2 medium carrots, grated
2 medium Lebanese cucumbers, sliced
300g tomato medley, halved lengthways
1/2 cup reduced fat hummus
Extra virgin olive oil, to serve.

Step 1: Place couscous into a medium heatproof bowl. Pour over boiling water, cover and set aside for 5 minutes until liquid is absorbed. Mix couscous with a fork to break up grains. Stir in oil and green onion.

Step 2: To make salad, dividing ingredients evenly, layer couscous, lettuce, carrots, cucumbers and tomatoes into 4 x 2 cup (380ml) sealable jars or plastic containers for school lunches. Top each with 1 tsp hummus. Drizzle with a little extra virgin olive oil to serve.

Frozen custard and fruit pops
For a cool, creamy alternative to icy snacks, try these GREEN pops at just 34c per serve.

Ingredients: 2 cups (600g) reduced fat custard 1 cup (350g) frozen raspberries or blackberries

Equipment: Large mixing bowl Food processor or sharp knife Spoons Wooden skewers cut into lengths of popsicles

Method:
1. Finely chop the frozen berries by hand or whiz in a food processor. Make sure they don’t defrost.
2. Pour the custard into a large bowl and carefully mix in the frozen berries. Be careful not to mix too vigorously or the berries will break down in mush.
3. Spoon mixture into the moulds and add a skewer or popsicle stick.
4. Freeze until solid, about 3–4 hours.

School Assembly
Tomorrow, Tuesday 10th
2.30 pm
Everyone welcome

 Principal’s news
Kitchen Opening
Thank you to those parents who have indicated that they would like to come in for the kitchen open day. We may have to run another day to cater for everyone. The official opening and cake cutting will take place at our assembly tomorrow from 2.30pm.

Remembrance Day
We will be walking up to the Anzac Memorial on Wednesday for a minute’s silence to commemorate this important day. Everyone is most welcome to join us.

Possible Swimming School
PCYC have contacted the school and are currently looking into the possibility of an intensive learn to swim program. We will have more information later this week.
